AL Elite Financing is a matching service, not a lender. This resource is general information, not legal, tax, insurance or financial advice.

Start with the work

A	Billable hours or loads per week (realistic)	
B	Rate per hour or load	
C	**Monthly revenue = A × B × 4.3**	
D	Weeks per year the truck will actually work	

- ☐ Hauling for my own jobs
- ☐ Subcontract hauling by the hour
- ☐ Owner-operator with own customers
- ☐ Mix

WORK LINED UP (CONTRACTS, LOIS, REGULAR CUSTOMERS)

New vs used: the truck

Line	Truck 1	Truck 2	Truck 3
Year / make / model			
New or used			
Mileage or engine hours			
Body type and capacity			
Price			
Warranty remaining			
Maintenance records? (Y/N)			
Emissions equipment condition			
Title clean, no liens? (Y/N)			
Pre-purchase inspection done? (Y/N)			

Used-truck inspection

- ☐ Engine and transmission
- ☐ Frame and suspension
- ☐ Hydraulics and hoist
- ☐ ECM / engine report pulled
- ☐ DPF / EGR emissions system
- ☐ Brakes and tires
- ☐ Body, tailgate, cab
- ☐ Accident history checked

Financing comparison

Lender	Down payment	APR	Term	Monthly	Total interest	Age / mileage cap
Lender 1						
Lender 2						
Lender 3						
Dealer / captive						

Example

A $185,000 new tri-axle with 10% down at 9.99% over 60 months is about $3,537/month. A $110,000 used truck with 15% down at 11.99% over 60 months is about $2,079. A $62,000 older truck with 20% down at 15.99% over 48 months is about $1,406, and shorter terms on older trucks keep the payment higher than the price suggests.

True monthly cost

E	Loan payment	
F	Commercial insurance (monthly)	
G	Fuel	
H	Tires, brakes, maintenance reserve	
I	Registration, permits, heavy vehicle use tax	
J	Driver wages (if not you)	
K	Parking / yard	
L	**Total monthly cost = E + F + G + H + I + J + K**	
M	**Cost per hour or load = L ÷ (A × 4.3)** Compare with B
