AL Elite Financing is a matching service, not a lender. This resource is general information, not legal, tax, insurance or financial advice.

What are you actually buying?

Quotes for 'a new AC' can describe very different jobs. Tick what each quote covers before comparing prices.

- [ ] Furnace only
- [ ] Full split system
- [ ] Dual-fuel (heat pump + furnace)
- [ ] Thermostat
- [ ] Permits
- [ ] AC condenser + coil
- [ ] Heat pump
- [ ] Ductwork repairs
- [ ] Electrical / gas line work
- [ ] Haul-away of old equipment

Match the halves
Replacing only the outdoor unit with a mismatched indoor coil can hurt efficiency and void warranties. Ask whether the indoor and outdoor components are a matched system.

Quote comparison

Write the model numbers; they let you compare like for like.

Line	Quote 1	Quote 2	Quote 3
Company			
Equipment brand / model numbers			
Size (tons or BTU)			
SEER2 / AFUE / HSPF2			
Parts warranty (years)			
Labor warranty (years)			
Load calculation done? (Y/N)			
Ducts / thermostat included?			
Permits and haul-away included?			
Utility rebates applied			
Cash price			
TOTAL PRICE			

Repair or replace?

AGE OF CURRENT SYSTEM (YEARS)

REPAIR QUOTE ($)

REPLACEMENT QUOTE ($)

REFRIGERANT TYPE

R-22 is phased out; repairs cost more

- [ ] Repeated breakdowns in the last two years
- [ ] Cracked heat exchanger (safety issue: replace)
- [ ] Energy bills rising while comfort falls
- [ ] Repair cost is a large fraction of replacement on an old system

If several boxes are ticked, replacement is usually the better long-term value. If none are, a safe repair can buy time to plan and compare financing calmly.

Financing comparison

Most HVAC financing is a fixed-rate installment loan paid to the contractor on completion. Compare the contractor's plan with at least one independent option.

Offer	APR	Term	Monthly	Total repaid	Dealer fee in
Contractor plan (standard)					
Contractor promo plan					
Independent lender 1					
Independent lender 2					
Utility on-bill program					

Promotional plans

Ask whether '0% for 18 months' is deferred interest (all back interest charged if any balance remains) or waived interest. And ask what the price would be if you paid another way; a dealer fee may be built in.

Questions to ask before you sign

- [ ] What is the APR including fees, and is the rate fixed?
- [ ] Is there an origination fee, and is it deducted from the loan amount?
- [ ] Is any promotional period deferred interest or waived interest?
- [ ] Is there a prepayment penalty?
- [ ] When is the contractor paid, and when does my first payment start?
- [ ] Does checking my options use a soft or hard credit inquiry?
- [ ] Who registers the warranty, and what does the labor warranty cover?

Decision and notes

- [ ] Repair now, replace later
- [ ] Replace: standard efficiency
- [ ] Replace: high efficiency
- [ ] Replace: heat pump
