AL Elite Financing is a matching service, not a lender. This resource is general information, not legal, tax, insurance or financial advice.

How to use this planner

A roof payment comes from three numbers: the price, the APR and the term. This planner helps you pin down the price with real quotes, see what each term costs, and check the payment against your monthly budget before you apply.

Before you start

- [ ] Two or three itemized roof quotes on the same scope (material line, underlayment, ventilation, flashing, gutters, per-sheet decking price)
- [ ] Your current monthly budget (income, essentials, existing debt payments)
- [ ] If insurance is involved: the adjuster's estimate, so you finance only the gap
- [ ] A recent look at your credit report (free at AnnualCreditReport.com)

> **Rule of thumb**
> Go for the shortest term with a payment you can carry comfortably, and confirm there is no prepayment penalty so you can pay extra when you can.

Quote comparison

Fill in each quote on the same lines. If a quote is missing a line, ask the roofer, since missing items become change orders later.

Line item	Quote 1	Quote 2	Quote 3
Company name			
Shingle / material line			
Tear-off and disposal			
Underlayment and ice & water			
Flashing, drip edge, vents			
Decking (per sheet price)			
Gutters / extras			
Permits included? (Y/N)			
Warranty (workmanship, years)			
Cash price			
Financed price (if different)			
TOTAL PRICE			

NOTES ON DIFFERENCES BETWEEN QUOTES

Payment by term

Use the roof financing calculator at alelitefinancing.com/tools/roof-financing-calculator/ with your price and an APR a lender has quoted (or an estimate), then record the results here.

ROOF PRICE (OR GAP AFTER INSURANCE)

APR USED (%)

Lender quote or estimate

Term	Monthly payment	Total interest	Total repaid
36 months			
60 months			
84 months			
120 months			
144 months			

Example

At an illustrative 9.99% APR, a $15,000 roof is about $484/month over 36 months, $319 over 60, $249 over 84 and $198 over 120. Total interest rises from about $2,400 at 36 months to about $8,800 at 120.

Budget check

A payment fits when it leaves room after essentials and existing debt, without draining your emergency fund.

A	Monthly take-home income All household income after tax	
B	Essentials (housing, utilities, food, insurance, transport)	
C	Existing debt payments (cards, car, student loans)	
D	**Room each month = A − B − C**	
E	Proposed roof payment From the term you prefer	
F	**Left over after the roof payment = D − E** Aim to keep a cushion	

Decide

- ☐ Payment fits comfortably
- ☐ Need to reduce the amount
- ☐ Fits only on the longer term
- ☐ Wait and save first

WHAT WOULD CHANGE THE DECISION? (REBATES, INSURANCE, CHEAPER MATERIAL, CO-APPLICANT)

Before you apply

Questions to ask every lender

- [ ] What is the APR including fees, and is the rate fixed?
- [ ] Is there an origination fee, and is it deducted from the loan amount?
- [ ] Is any promotional period deferred interest or waived interest?
- [ ] Is there a prepayment penalty?
- [ ] When is the contractor paid, and when does my first payment start?
- [ ] Does checking my options use a soft or hard credit inquiry?

Documents to have ready

- [ ] Government ID
- [ ] Recent pay stubs or bank statements
- [ ] Roofer's written quote
- [ ] Insurance estimate (if any)
- [ ] Mortgage statement (for equity options)
- [ ] Co-applicant details (if any)
